Monisha,

Looks like RD wants the %CT memo from BEAD for aldicarb by the end of the month. I just sent you an email regarding timeline for streptomycin comments which would conflict with RD's timeline for aldicarb for Tara. Can I ask RD to push date back two weeks. PRIA date is July 15<sup>th</sup>.

Thanks  
margarita

Hi Margarita,

I called your number, below, but got your voicemail. (I really should learn our phone system better so that the number will appear to be my desk number.....)

Anyway, I spoke with Shanta this morning about this action. We agreed that we would like to have the BEAD review in the next few weeks (end of April). Can you work this time frame into your schedule?

Please let us know.

Thank you.

Debra

Hi Debra,

Thanks for the BEAN for the %CT action for aldicarb. This BEAN gives a LSDD date of January 17, 2020 and PRIA date of July 15<sup>th</sup>, 2020. Can RD provide a timeline of when you will need this action completed by

Thank you,  
Margarita

Hi Margarita,

Attached is the BEAN for the PCT. We don't have the submission yet for the benefits package that they promised, but will create a BEAN and send that to you when we do have it.

I do not have the capability to change the LSDD on a BEAN sheet as that is automatically generated by OPPIN based on the PRIA due date. Since the PRIA due date has not changed, neither will the LSDD have been updated.

Hi Debra,

Could you please send me a copy of the BEAN for the PCT action. BEAD also needs a BEAN for the benefits analysis. Please check the LSDD on the BEAN for the PCT to make sure it is in line with current time line.

Thank you,  
margarita

Hello Margarita,

I cannot find a BEAN PCT. It is possible that SIAB received it. You can ask to update the due date but I am not sure if they are able to do that – but it is a good idea to regroup on this internally to find out if there is any useful information and find out when RD expects it.

I don't have a request for the benefits either.

You could also check with Carolyn – she may have entered on our end – or ask Debra.

Thanks,

Monisha

Monisha,

Do you have this BEAN for PCT action? Otherwise I can ask Debra to send me a copy. Not clear whether they also sent us a BEAN for Benefits analysis. I can ask for this as well. Depending on due date for the PCT action should I ask for a new LSDD considering this delay?

Thanks  
Margarita

p.s. I entered the attached data into the G:drvie

Hi Monisha, Mark and Margarita-

I know Hope is back in RD today, and since I am not sure which reviewer(s) you plan to have working on this, I've only included the three of you on the email.

Attached is the response prepared by Pyxis/AgLogic as follow-up to the conference call on February 24, 2020 pertaining to the %CT numbers from the draft memo that were discussed. Janelle indicated to me that they were also working on a benefits package (or an update to the benefits package that was provided for registration review to include citrus), but that may take a little longer before we will receive that.

Currently there is an open BEAN with BEAD for this action, but let me know if you want/need an additional BEAN for this review. Let me know if you would like to discuss any impacts this new information may or may not have on your analysis as you move forward with your %CT review.

Thank you for all of your work on this action and please let us know if there is anything more you need from us or the registrant to complete this action.

Debra
